- 25X1 1. [redacted] Comment. Coal stocks continued to rise by 3,237 tons to a total of 239,412 tons. According to the new daily coal consumption quota of 19,300 tons, this quantity is adequate for about 12.4 days' requirements.  
 25X1 [redacted] Hard coal stocks rose by only 63 tons. The backlog of undispatched cars remained at the previous high level. The number of operational railroad cars continued to rise. This increase may partly be due to the number of freight cars repurchased from the U.S.S.R. Prior to 1 October 1952, a total of 2,649 cars was returned to Germany. Of this total, 4,605 cars were assigned to the park of operational railroad cars.
